Nurses in the Long Term Care Setting

**Audience**
This training is intended for registered nurses licensed in Quebec who want to better understand the role of the nurse in a long term care setting.

**Program Duration and schedule**
This course is 7 hours in length. It can be offered in one or two sessions at your location or at the college during the weekday, evenings or weekends.

**Course Objectives**
At the end of the course participants will be able to:

1. Describe the mission of LTC in the Quebec health system
2. Understand the McGill model of nursing approach to long term care
3. Describe the multiple roles of the nurse in LTC
4. Describe the importance of the therapeutic nursing plan (TNP) in long term care
5. The use of the nursing process in LTC
6. Understand the need for effective preceptor ship and mentorship to ensure the highest quality of geriatric nursing for our future health care system
