

ENVIRONMENTAL STUDIES CERTIFICATE OPTION COURSES

Please note: If a teacher name is indicated, the course must be taken with them. Courses that have no teachers indicated generally means that all sections of that course qualify for the certificate and that the course is taught by a variety of teachers. When in doubt, ask your teacher if the course has Environmental Studies components (15% of course content required).

Not all courses/sections are offered each semester. This list updated March 21 2021.
